Amendments to the Abstract

Please amend the Abstract of the Disclosure as follows:

A printing apparatus, ~~for forming~~ which forms a color image by applying different color inks to a printing material while bi-directionally moving the recording head to scan the recording material, ~~the apparatus~~ includes a changing means unit for changing an order of applications of the inks of different colors to be applied at least at one amount for printing a secondary color to a secondary color pixel area; and a forming means unit for forming the secondary color while making the order of applications of the inks to at least one of a plurality of the secondary color pixel areas arranged along a predetermined ~~direction-different-from-the-order-of-another, by the changing means unit.~~
